In the name of God

Database Lab

Spring 2016

Parham ALVANI

March 8, 2016

Date Performed: March 2, 2016
Partners: Iman Tabrizian

1   Results and Conclusions

In this session we created the relational databases from the given schemas, and then we wrote some queries for selecting and finding some specific records. The source code of our query has been attached to this document.
